Summary

Data Analytics student at the University of South Carolina (GPA: 3.98) with a Business Administration minor and a certificate in Data Analytics & Visualization. Skilled in Python, R, SQL, and Excel with experience in statistical analysis, data visualization, and translating data into actionable business and consumer insights.

Education

Bachelor of Science in Data Analytics <i>University of South Carolina — Columbia, SC</i> - Minor in Business Administration; Certificate in Data Analytics & Visualization - GPA: 3.98 President's List (4 semesters) Dean's List (Fall 2025) Departmental & University Scholarship Recipient - John M. Grego Data Analytics Award (2026) — First-ever recipient, awarded by the Data Science and Data Analytics Program	Aug 2023 – May 2027
Study Abroad — Spanish Civilization & Culture <i>Institute for American Universities (IAU) — Madrid, Spain</i>	Jan 2026 – Apr 2026

Experience

NSF REU Researcher — Biological Data Analysis & Cell-Fate Prediction <i>University of South Carolina, Dept. of Mathematics — Columbia, SC</i> - Selected for competitive NSF-funded REU; collaborated on a 5-person team analyzing large-scale genomic datasets in R to model biological pattern changes across experimental conditions. - Built a multi-stage comparative analysis pipeline segmenting data into time-based groups, then designed and validated a new analytical method via bootstrap resampling, benchmarking it against an industry-standard tool.	Jun 2026 – Jul 2026
Data Analytics Project Intern <i>Johns Hopkins University — Baltimore, MD</i> Analyzed institutional survey datasets (5,000+ responses) in Excel to identify key trends for university decision-making; communicated findings to leadership via infographics and an executive summary built in Canva.	May 2025 – Jun 2025
Technology Coordinator <i>Kappa Kappa Gamma — Columbia, SC</i> Oversee full recruitment analytics process, supervising matching team and maintaining data integrity and process efficiency across all selection decisions.	Dec 2025 – Present
Head of Matching Committee (Recruitment Data & Selection) <i>Kappa Kappa Gamma — Columbia, SC</i> Led a four-person team managing recruitment matching for Fall 2025 (2,502 participants — one of the largest Panhellenic recruitments nationally); produced a 180-member pledge class under strict deadlines.	Dec 2024 – Dec 2025
Service Industry Experience <i>The Salty Nut Café (Server), Ryleigh's Oyster Bar (Host & Server), Baltimore Coffee & Tea (Barista)</i>	Jun 2021 – Present

Projects

Navigating the U.S. Housing Market Through Data — Tableau Story Built an interactive Tableau Story analyzing U.S. housing market trends and regional price patterns to surface affordability insights.	Dec 2025
Mental Health & Social Media Balance: A Multivariate Study (R) Applied clustering, factor analysis, and visualization to reveal patterns in social media use and mental wellbeing.	Nov 2025

Volunteering

KKG Philanthropy — The Jed Foundation Lead biannual fundraising efforts supporting mental health initiatives for young adults and teens.	Aug 2023 – Present
Art of Leadership Program — Art with a Heart Created a mental health awareness mosaic for NAMI as a capstone public art project across Baltimore.	Aug 2021 – Jun 2022

Skills

Programming: Python, R, SQL, Java
Analysis & Tools: Statistical Analysis, Data Visualization, Multivariate Methods, Tableau, Excel, GitHub, Canva

Coursework

Algorithmic Design I, Applied Multivariate Statistics, Data Visualization, Scientific Applications Programming, Statistical Methods for Data Analytics, Visualization Tools
